We will work with OCFO to receive and properly analyze the second quarter financial statements. Work has started to refine and consolidate schedules and queries which are likely to be requested by the auditors for FY03.	10
			2/11/2003	Both the Department and FSA received a clean opinion on the FY'02 audit. Multiple action plans and efforts will be put into place during FY'03 to improve our processes, analysis and reconciliations to enhance our probability of receiving a clean audit in FY'03.	100

<i>Priority#</i>	<i>Channel</i>	<i>Action Item</i>	<i>Status Date</i>	<i>Progress Summary</i>	<i>% Complete</i>
			2/7/2003	FSA was on GAO's High Risk List for FY 2003, issued January 30, 2003, supported by work ending and ongoing through December 2002. In January, FSA received a clean opinion on its FY 2003 financial statement audit - thus the major obstacle for being removed from the GAO High Risk List has been overcome, although not timely enough to affect the January 2003 GAO High Risk designation. However, the FSA is requesting a reconsideration of the designation in FY 2003, in consideration of the clean audit, the plans for continued financial management improvement, and the commitment by management to address the issues, as demonstrated in the FSA and Department Annual Plans, the Department's Strategic Plan and other more detailed plans. This item will remain yellow until we have assurance that GAO will provide us with an interim assessment. It will turn red if GAO decides not to provide us with an interim assessment. At this time the COO of GAO knows that there will be a formal request and is open to discussing the request internally.	25
			1/24/2003	Although the draft financial statement audit report indicates that FSA is going to receive a clean opinion (thus the major obstacle for getting off of the GAO High Risk List will have been overcome), until we have assurance that GAO will provide us with an interim assessment prior to the end of the fiscal year the project will remain yellow.	10

GAO Relations - On 11/25/02, senior FSA and Department managers met with GAO to discuss the SFA programs High Risk Plan status, and provide information on why the designation should be removed. The High Risk Plan and other supporting documents and accomplishments were provided to GAO at that time, to be followed by a written request. At a 12/10/02 GAO exit conference on Department Management Challenges, GAO managers stated that the SFA programs would be designated high risk in their January 2003 update. The Department requested that if FSA gets a clean opinion on its FY 2002 financial statements that GAO review the SFA programs Performance Plan and accomplishments after 6/30/03 for consideration of a mid-year determination. Our request is currently under considered. The written document drafted as a result of the 11/25/02 meeting is being redrafted to reflect the results of this meeting.

OMB Relations - A meeting was held with OMB on 11/21/02 to discuss the first quarter's accomplishments on the President's Management Initiatives and Program Initiatives. Preliminary discussions with OMB on their first quarter 2003 draft report indicate that if the status grade for the Department's financial management initiative is raised that the High Risk status could also be raised as the accomplishments and plans to address issues are apparent.

Due to the deferral of this automated function, we are changing status to yellow. However, COD CSRs have been running weekly reports and calling schools that are 60 days out for the past couple of months (I.e., a manual process will continue to occur until the automated triggering replaces it).

	The SOO to address the the overall data strategy document and activities under 16.2 including the mapping of business flows, data inventories, redundant data analysis and summary, and the completion of a target state assessment for business data integration is being formulated. Key mangers were contacted on Dec. 20, 2002 and all agreed to constitute the core cross-functional data strategy team. Additional membership was discussed and additional participant names were suggested by the core team members. Due to holiday leave schedules, the first formal cross-functional team kick-off meeting is scheduled for Jan. 13, 2003. Additional membership will be solicited to help ensure enterprise representation for these cross-cutting efforts and key contractor personnel will be included in future meetings as appropriate. The final development and content of the overall data strategy SOO will be addressed with the cross functional project team during meetings the week of Jan. 13. Achieving the target date of 1/31/03 is contingent on acquiring contract support in sufficient time for product delivery. Therefore, for this reporting period, the overall status of 16 is being reported as yellow.
