

Bi-Weekly Report as of June 13, 2003
FSA Performance Plan – FY2003

SUMMARY

COMPLETED PROJECTS

- The project to stabilize the Lender Application Process (LAP) and Lender Reporting System (LaRS) was successfully completed on June 6, 2003. (*Project 10*).

GREEN LIGHT

- The building and testing of enhancements to Form 2000 has been completed. (*Project 7 – Implement Form 2000 enhancements*) System testing is currently in progress and on schedule.

YELLOW LIGHT

- Although the third quarter is nearly complete, the major milestones in Project 11 (*Enhance Program Monitoring and Oversight*) are not near 75% completion. Due to the end-loading of milestones, this project runs the risk of non-completion by September 30, 2003.

RED LIGHT

- GAO sent a letter to the Department dated June 6, 2003, declining the Department's request to reconsider the January 2003 decision to classify the SFA programs as high risk. As such, FSA will not meet the goal of getting off the GAO High Risk List. (*Project 2 – Develop and execute an FY 03 plan to get off the GAO High Risk List*)
- Project 16 (*Define an enterprise-wide data strategy and high-level implementation approach that addresses the business flow of data across the enterprise, architecture, primary ownership, standards, management, access methods, and quality*) status continues to be red because the Project due date is not consistent with the task order due date of November 17, 2003.

DATE CHANGE REQUEST

- Project 16 has resubmitted a request for a date change for the entire project. The date change request is from September 30, 2003, to November 17, 2003. This is needed because the task order has a due date of November 17, 2003.

CLOSED PROJECTS

- No projects were reported under this category for this reporting period.

ACTION PLAN STATUS AT A GLANCE

as of June 13, 2003

FSA No.	Indicator	Status
1	Obtain a clean audit opinion on FSA's financial statements	✓
2	Develop and execute an FY03 plan to get off the GAO High Risk List	R
3	Reconcile FSA accounts to Department's general ledger within 30 days after month-end close by 9/30/03	
4	Implement the proper accounting structure and appropriate internal controls in all systems impacted by FSA's system integration and technology solution initiatives	
5	Develop trial balance capability for each operating partner (ACS, Raytheon, EDS, COD) to facilitate and expedite the reconciliation process	
6	Address material weaknesses and reportable conditions in audits	
7	Implement Form 2000 enhancements needed since original deployment in October 2000	G
8	Determine the scope of the Debt Management Collection System (DMCS) reengineering	✓
9	Improve school's fund management, reconciliation, and close out processes	G
10	Stabilize the Lender Application Process (LAP) and Lender Reporting System(LaRS)	✓
11	Enhance Program Monitoring and Oversight	Y
12	Develop and standardize an integrated contract management approach that utilizes performance measures that are directly linked to the business case objectives	
13	Create an Enterprise-level dashboard of productivity and performance metrics	✓
14	Develop and/or implement workforce alignment (business processes, skills, etc.) initiatives and actions to support FSA performance goals and One-ED objectives	
15	Implement integrated project management oversight for FSA's system integration initiatives	
16	Define an enterprise-wide data strategy and high-level implementation approach that addresses the business flow of data across the enterprise, architecture, primary ownership, standards, management, access methods, and quality	R
17	Analyze Personal Identification Number (PIN) issues related to enterprise wide management/architecture strategy	
18	Create an overall FSA integrated security and privacy architecture	
19	Develop and implement initial phases of an enterprise-wide customer service solution that incorporates best-in-business technology and enhanced business processes	CLOSED
20	Improve the management of student aid through data sharing and consolidating common borrower services and functions	
21	Define strategy for EDExpress reengineering	G
22	Develop an outreach strategy for Aid Awareness in support of OPE and tied to "No Child Left Behind"	
23	Upgrade technology and integrate CPS across the enterprise	
24	Conduct NSLDS Analysis and begin phased implementation of solution	CLOSED
25	Complete the recommendations outlined in the OIG audit (A07-C001) Audit of Enterprise Architecture, issued September 30, 2002	
26	Evaluate our participation in all events	
27	Implement Master Promissory Note for PLUS	✓
28	Enhance our cash transaction process to accommodate OCFO procedures	
29	Augment Leveraging Educational Assistance Partnerships (LEAP)/Supplemental Leveraging Educational Assistance Partnership (SLEAP) module in FMS to enable direct electronic data exchange with GAPS and enhance the operational abilities	
30	Obtain a clean financial opinion for ED through: improving FMS internal processes, programs, controls; supporting reconciliation activities between FSA Operating Partners, FMS, FMSS, GAPS and Treasury; provide integration with FSA reengineered systems; and perform upgrade analysis and implementation of Oracle Federal Financials Release 11i	
31	Support ED, customers and business partners by participating in the President's Management Agenda E-Government initiatives	
32	Develop an automated tool to administer budgetary resources for FSA's programs and to provide management with the data to effectively manage those resources

MILESTONE PLAN STATUS AT A GLANCE

as of June 13, 2003

FSA No.	MILESTONE	Status
1	Obtain a clean audit opinion on FSA's financial statements	✓
1.1	Work with the Department to obtain a clean audit opinion	✓
1.2	Work with the Department and auditors to assure full compliance with Federal Financial Managers Improvement Act (FFMIA), Federal Managers Financial Integrity Act (FMFIA), and other laws and regulations	✓
1.3	Work with the Department to correct all material internal control weaknesses identified in the financial statement audit report	✓
1.4	Review internal controls in Financial Management System (FMS) to ensure that data is accurate, reliable, available and timely to maintain adequate stewardship and accountability	✓
1.5	Participate with Budget Services in determining credit reform subsidy estimates	✓
1.6	Enhance 'Splitter' process in Financial Management System (FMS). Review FMS and Accounting Division Operations processing	✓
1.7	Assist in the preparation of all Department-wide financial statements	✓
2	Develop and execute an FY03 plan to get off the GAO High Risk List	
2.1	Review GAO Guidance, OMB concerns and FY 2002 High Risk Plan outcomes and status	✓
2.2	Determine necessary action items for FY 2003 and update plan	✓
2.3	Validate plan with FSA Senior Leaders, Department Advisors and share with GAO and OIG	✓
2.4	Finalize plan	✓
2.5	Demonstrate progress in having implemented corrective measures through improved accountability mechanism assuring addresses necessary reporting requirements for Performance Plan, Department's Strategic Plan, MIT and President's Management Agenda	
2.6	Develop internal communications infrastructure	
2.7	Update plan monthly as necessary	
2.8	Meet with and/or inform GAO and OMB on progress and internal monitoring regularly	
3	Reconcile FSA accounts to Department's general ledger within 30 days after month-end by 9/30/03	
3.1	Complete FSA reconciliations for FY03 for all Balance Sheet accounts using Standard General Ledger (SGL)	✓
3.2	Transition FSA reconciliations to FSA Accounting Division Staff	✓
3.3	Identify resources and FTE's needed for FY03 reconciliation effort	✓
3.4	Review current reconciliation process to improve audit trail of data from Operating Partners to FMS to Financial Management System Software (FMSS) and from FMS to/from Grant Administration and Payment System (GAPS)	✓
3.5	Develop an automated methodology to reconcile cash transactions in FMS to the Treasury banking system	✓
3.6	Coordinate with OCFO to reconcile all Standard General Ledger (SGL) accounts for FSA appropriations	✓
3.7	Work with FSA system owners and Operating Partners to research and resolve any reconciling differences	✓
3.8	Work with FSA system owners and Operating Partners to resolve any systemic issues	✓
3.9	Enhance FMS to populate all attributes needed for reconciliation	✓
3.10	Enhance FMS to integrate the transaction ID from GAPS	
4	Implement the proper accounting structure and appropriate internal controls in all systems impacted by FSA's system integration and technology solution initiatives	

4.1	Establish board members to include operating and system accountants	
4.2	Establish meeting frequency	
4.3	Develop account validation framework for system development and ongoing certification of accounting and program systems providing financial management data	G
4.4	Review all accounting treatment to ensure compliance with Standard General Ledger (SGL) accounting	✓
4.5	Develop framework for measuring whether the accounting validation is working by performing independent post production validation	G
5	Develop trial balance capability for each operating partner (ACS, Raytheon, EDS, COD) to facilitate and expedite the reconciliation process	
5.1	Establish a system development workgroup, including ED-OCFO, FSA-CFO, FSA Management and Program Area, Operating Partners, to develop detail requirements specific to each program area	✓
5.1.1	Review and document each operating system (providing for consistency among and within systems)	
5.2	Develop chart of accounts for each operating partner (sub-accounts is prerequisite) in FMS	
5.2.1	Develop Trial Balance at each Operating Partner	
5.3	Utilize an automated tool to balance and reconcile all financial transactions received from Operating Partners	
5.4	Work with Operating Partner to balance and reconcile all financial transactions	
5.5	Roll up support balances in Financial Statements	✓
5.6	Debt Management Collection System (DMCS) complies with FMS subsidiary ledger reconciliation requirements	Y
6	Address material weaknesses and reportable conditions in audits	
6.1	Strengthen financial reporting to ensure full compliance with OMB Circular A-123, Management Accountability and Control, and Credit Reform guidance	✓
6.1.1	Ensure that the newly implemented financial management system supporting FSA's financial management and reporting needs is working effectively and adequately integrated with the Department's general ledger	✓
6.1.2	Use FMSS to produce a general ledger trial balance at the reporting group level or at a consolidated level	✓
6.1.3	Identify, research, and correct account differences and validate proper posting	✓
6.1.4	Minimize use of manual adjustments to correct discrepancies, and maintain sufficient documentation to support accuracy and completeness of adjustments, including their preparation, review and approval	✓
6.2	Prepare/review quarterly and annual financial statements in accordance with OMB form and content guidance 01-09	✓
6.2.1	Follow established policies and procedures for preparation of quarterly financial statements, quarterly analysis of trial balance accounts and quarterly reconciliation of feeder systems to FMS and from FMS to FMSS	✓
6.2.2	Define approaches to corroborate account balances for all significant accounts on a monthly or more frequent basis, as appropriate. Ensure the accuracy of reported account balances	✓
6.2.3	Maintain sufficient documentation to support differences in the subsidiary records and the general ledger records	✓
6.2.4	Review trial balances and financial statements for follow up on unnatural balances in financial statements	G
6.2.5	Perform proper and timely reconciliation's of financial accounting records. Identify, research, resolve and document reconciliation differences of all significant accounts, both proprietary and budgetary, general ledger (GL) and subsidiary, in a timely manner	✓

6.2.6	Verify accounting processes for FMS' new Lender Reporting System (LaRS)	✓
6.2.7	Prepare quarterly Schedule 9 reports for loans receivable	✓
6.2.8	Use data mining and other approaches to search for duplicate payments and research improper payments that are identified and refine internal controls in response to such efforts	✓
6.3	With the implementation of Common Origination and Disbursement (COD), remind schools that report Pell and DL disbursement data of the requirement to complete verification of selected students	✓
6.4	Improve monitoring mechanism to reduce the repeat of prior material weaknesses and reportable conditions	G
6.4.1	Review auditor's report on financial statements and participate in the development of plans and actions and milestones to address any outstanding reportable conditions and Management Letter recommendations	✓
6.4.2	Hold regular meetings to review and discuss status of current actions developed to respond to audit report recommendations	✓
7	Implement Form 2000 enhancements needed since original deployment in October 2000	
7.1	Gather user comments and requirements	✓
7.2	Validate and prioritize business requirements/enhancements	✓
7.3	Separate operational corrective actions identified in 2001 and 2002 from enhancements	✓
7.4	Define and compile operational and enhancement requirements	✓
7.5	Add electronic corrections ability	G
7.6	Validate processing outcomes through user testing and accounting treatment verification	
7.7	Begin to integrate enhancements in Data Mart Release III build to create integrated view for scorecard and submission reporting	G
7.8	Manage work group and Steering Committee for business process corroboration	
8	Determine the scope of the Debt Management Collection System (DMCS) reengineering	✓
8.1	Validate whether to recompute the contract with limited reengineering or pursue increased reengineering through FSA system integration and new technology solution initiatives	✓
8.2	Commence either a contract recompute or fully reengineering project to redeploy the system	✓
9	Improve school's fund management, reconciliation, and close out processes	
9.1	Reduce time to deliver funds to schools	G
9.2	Identify improvements and fill gaps in current operational procedures related to reconciliation	G
9.3	Implement systematic notifications and operational procedures related to disbursement to drawdown ratios	✓
9.4	Retire Pell's Recipient Financial Management System (RFMS) and the Direct Loan Origination System (DLOS)	G
10	Stabilize the Lender Application Process (LAP) and Lender Reporting System(LaRS)	
10.1	Validate submissions and financial processing through regression testing	
10.2	Verify the full performance functionality of the extensions built in Oracle Financial Management System (FMS)	✓
10.3	Establish a CFO/Financial Partners operational management and integration work group	
11	Enhance Program Monitoring and Oversight	
11.1	Develop and deliver an Enterprise-wide Program Monitoring Plan	✓
	Student Eligibility	
11.2	Student Applicant and Disbursement Data	

11.2.1	Develop a plan to continue to identify, measure and monitor applicant and payment error	✓
11.2.2	Implement Phase I of the plan	
11.2.3	Develop and deliver training to staff on needs analysis, verification and conflicting documentation	G
	School Oversight	
11.3	Integrate School Information Systems	
11.3.1	Reengineer and streamline Case Management and Oversight (CMO) business processes to reduce decision making timeframe and achieve increased consistency of outcomes	G
11.3.1.1	Implement electronic audits and financial statements	✓
11.3.1.2	Define requirements and conceptual design for workflow tool to facilitate processes (most likely Postsecondary Education Participation System (PEPS) reengineering)	G
11.3.2	Define measures for compliance/ oversight activities to demonstrate the effectiveness of case management including technical assistance	✓
11.3.3	External Training	G
11.3.3.1	Plan, design and build a "100 Series" of basic training for schools	G
11.3.3.2	Develop and deliver a program integrity training for schools through a combination of videoconferences , web-based training, and classroom experiences	G
11.4	Partner Oversight	
11.4.1	Enhance the use of available financial partner data by implementing Phase III of the Financial Partners Data Mart	Y
11.4.2	Continue enhanced oversight of lenders/servicers and guarantee agencies through improved consistency and risk management tools	G
11.4.3	Check and analyze the quarterly submissions for all quarters in FY03 for accuracy and proper accounting treatment and funding transactions	G
11.4.4	Coordinate submissions, outcomes, remittance processing, and data quality with regional reviews initiative scheduled for FY03	G
11.5	Risk Management and Default Prevention Strategies	
11.5.1	Demonstrate improved risk management and default prevention strategies	✓
12	Develop and standardize an integrated contract management approach that utilizes performance measures that are directly linked to the business case objectives	
12.1	Standardize approach and processes	
12.2	Provide training and support to all project managers (PMs), Contracting Officer Representatives (CORs), all stakeholders and accountable contract entities on the new process and performance measures that monitor business case expectations/ outcomes against achieved results	
12.3	Pilot process with one project and refine process based upon pilot	
12.4	Implement new process across all projects	
12.5	Establish outcome-based performance measures and framework for FSA and partners to manage performance	
12.5.1	Convene Performance Measures Working Group	
12.5.2	Develop industry best practice framework to manage performance	
12.5.3	Pilot proposed framework on measuring customer interaction	
13	Create an Enterprise-level dashboard of productivity and performance metrics	✓
13.1	Develop a plan to identify metrics that are auditable, repeatable, can measure the quality of business services and delivery at the aggregate and service delivery level, and are compliant with the Statement of Federal Finance Accounting Concepts and Standards (SFFACS), where appropriate	✓
13.2	Implement Phase 1 of this plan	✓
14	Develop and/or implement workforce alignment (business processes, skills, etc.) initiatives and actions to support FSA performance goals and One-ED objectives	

14.1	Begin to align with/participate in One-ED	G
14.2	Establish organization alignment teams to work across channels to determine/execute the to-be-state	
14.3	Define HR systems requirements and work with ED (Time and Attendance, Retirement)	
14.4	Align functions, unit configuration, and work responsibilities with new system integration and technology solutions	
14.5	Expand Career Zone (CZ) offerings to include new system and technology solutions	G
14.5.1	Expand Career Zone offering to include Title IV basics - programs, delivery system, negotiated rulemaking. Build and deliver "Partnering for Performance" sessions	
14.6	Review, update and use the FSA skills catalog	G
14.6.1	Review and update FSA skills catalog	G
14.6.2	Conduct gap analyses based on skills catalog (business units TBD)	G
14.6.3	Provide learning opportunities to fill skills gaps	G
14.7	Develop learning track for case management teams	Y
14.7.1	Conduct research and analysis of skills needed to perform specific jobs	
14.7.2	Create the curriculum, focusing on "data driven" approach	
14.7.3	Conduct skills assessment	
14.7.4	Provide learning options to fill gaps	
14.8	Align Manager Excellence Training to focus on Performance and Accountability	G
14.9	Assess the feasibility of implementing web-based Performance Management Process (PMP) that incorporates Education Department Performance Appraisal System (EDPAS) and Individual Develop Plan (IDP)	
14.10	Add the career counseling component to FSA Career Zone	
14.10.1	Obtain adequate funding	✓
14.10.2	Determine the order of magnitude of the impacted employees	
14.10.3	Identify relevant employee support needs	
14.10.4	Work with Acquisitions and Contract Performance (ACP) to develop Statement of Work (SOW) and the feasibility of interagency agreements.	
14.10.5	Award contract	
14.10.6	Develop/execute communications plan	
14.11	Ensure availability of physical space for service providers	
15	Implement integrated project management oversight for FSA's system integration initiatives	
15.1	Provide program management support for FSA system integration and new technology solution initiatives	✓
15.1.1	Issue a task order under the Modernization Partner Contract to ensure continued support for integration, leadership, direction setting, reporting and contract/subcontract management	
15.2	Formalize FSA Integration Group	✓
16	Define an enterprise-wide data strategy and high-level implementation approach that addresses the business flow of data across the enterprise, architecture, primary ownership, standards, management, access methods, and quality	
16.1	Identify the strategic focus areas necessary to develop a cohesive enterprise-wide data strategy	✓
16.2	Collaborate with all internal Department stakeholders and external stakeholders to identify business needs and requirements with respect to the data provided to FSA by others, provided by FSA to others, and managed by FSA	R Y
16.2.1	Map the current state and future state business flow of data, as applicable, across the enterprise	R R
16.2.1.1	Inventory legacy/operational data, including different databases and data stores, to identify redundancy	R

R

16.2.1.2	Determine where business data should be integrated	R
16.2.2	Develop requirements and initial design for Common Identifiers for School and Students.	R
16.3	Determine Current Data Quality and Establish Target State Plan and Quality Assurance Process	R
16.3.1	Evaluate and identify data quality problems and identify correct source of data	R
16.3.2	Develop a data cleansing plan based on cost, value and urgency	R
16.3.3	Develop and administer a data quality process which ensures the FSA projects implement enterprise data standards and quality standards	R
16.3.4	Establish an FSA data quality committee comprised of both business and technical subject matter experts to ensure that enterprise data standards are addressed within each project	R
16.4	Develop and enterprise-wide extensible markup language (XML) Technical Architecture Framework to enhance data sharing and standardization with our external customers	R
16.4.1	Develop an XML framework including: and FSA XML Vision, XML standards, governance process, methodology, XML technical core components, sector libraries, and schemas	R
16.4.2	Develop and integrated sequencing plan that identifies when and how each initiative will implement the XML framework as part of an overall enterprise data integration plan	R
16.4.3	Establish Common Record XML format	R
16.4.4	Identify initial requirements and initial design for XML Institutional Student Information Report (ISIR)	G
16.4.5	Complete development activities to implement XML for ISIR for 2004-05	
16.5	Develop integrated Data warehouse and data mart strategy	R
16.5.1	Develop Data Warehouse and Data Mart Vision	R
16.5.2	Develop Data Warehouse and Data Mart Framework	R
16.5.3	Develop technical standards and guidelines	R
16.5.4	Develop a strategy for enterprise wide data sharing and distribution (data storage, management and access rights)	R
16.6	Develop technical standards, conventions, and data management guidelines	P
16.7	Review Security and Privacy Procedures and revise as necessary	R
16.8	Develop an enterprise web services/portal strategy	R
17	Analyze Personal Identification Number (PIN) issues related to enterprise wide management/architecture strategy	
18	Create an overall FSA integrated security and privacy architecture	
18.1	Convene FSA security and privacy architecture working group and provide support for meetings and deliberations	
18.2	Review past work plan and update the plan with the latest business and technical developments that are applicable	
18.3	Integrate FSA needs with Departmental and government wide initiatives (e.g. Critical Infrastructure Protection, Enterprise Architecture, eAuthentication, etc.)	
18.4	Recommend technical approaches to each of the security services (e.g., encryption, authentication, etc.) required by FSA (and partner organizations)	
18.5	Identify and estimate the cost of all FSA projects that will require modification to fit within the proposed enterprise security/privacy standards	
18.6	Implement one or more proof-of-concept infrastructure improvements, with specific intention to develop an identity management infrastructure (enrollment, use of school or lender XML identity credentials, Single Sign-On) to support business-facing (school/lender/GA, not Personal Identification Number-based (PIN-based) student/borrower) applications	
19	Develop and implement initial phases of an enterprise-wide customer service solution that incorporates best-in-business technology and enhanced business processes	
19.1	Develop a common platform to manage customer interactions	closed

19.2	Link the common platform to pre-attending, attending, and post-attending	closed
19.3	Implement an integrated customer view	closed
19.4	Implement a process to continuously improve products and services based on	closed
19.5	Develop and implement a workforce transformation strategy aligned with overall	closed
19.6	Develop an enterprise-wide knowledge management tool for Operating Partners,	closed
19.7	Ensure common platform conforms to security and privacy policies	closed
19.8	Move system of record ownership for student demographic data from legacy	closed
19.9	Develop Customer Service/Interaction business processes and data model, and	closed
19.10	Link the common platform to schools and financial partner customers, which	closed
19.11	Develop a standard process to manage both control and non-control mail to	closed
19.12	Customer interaction analysis	closed
19.13	Improve Customer Service for Schools	closed
19.13.1	Implement New Tool for Customer Service Call Center (CSCC)	closed
19.13.2	Recommendations for consolidated customer service functions	closed
19.13.3	Implement transfer capability between key schools channel delivery call centers	closed
19.13.4	Begin to implement enhanced functional interactive voice response (IVR) routing	closed
19.13.5	Use data to identify trends from back-end systems and customer service	closed
19.13.6	Perform analysis of work already complete towards knowledge repository (e.g:	closed
19.13.7	Implement enhancement to schools portal through integrated views & business	closed
19.14	Complete & make operational the Program Development Division's (PDD's)	closed
19.14.1	Contract for imaging services	closed
19.14.2	Implement plan for profiling of imaged documents	closed
19.14.3	Deploy Knowledge Data Base	closed
20	Improve the management of student aid through data sharing & consolidating common borrower services & functions	
20.1	Identify common functions in Servicing, Consolidation, & Collections	✓
20.2	Identify interdependencies & constraints for integration of common services	✓
20.3	Implement quick hits	✓
21	Define strategy for EDEExpress reengineering	
21.1	Define Strategy for EDEExpress reengineering	
22	Develop an outreach strategy for Aid Awareness in support of OPE & tied to "No Child Left Behind"	
22.1	Analyze current Student Aid Awareness pubs & costs, & validate strategy	
22.2	Determine additional portal functionality	
22.3	Design & build Release 3 of Students Portal to incorporate revised publications &	
23	Upgrade technology & integrate CPS across the enterprise	
23.1	Develop a plan for upgrading CPS	
23.2	Requirements & design for upgrading CPS	
24	Conduct NSLDS Analysis & begin phased implementation of solution	
24.1	Deliver NSLDS Action Plan	closed
24.2	Begin to implement the detailed technical hardware & software design of the	closed
24.3	CIO will begin the effort to re-platform the NSLDS	closed
24.4	Complete the technical hardware & software re-platform	closed
25	Complete the recommendations outlined in the OIG audit (A07-C001) Audit of Enterprise Architecture, issued September 30, 2002	
25.1	Implement the OIG recommendations to strengthen the linkages between	
25.2	Continue to populate, validate the information in the enterprise architecture	
25.3	Procure additional EA tool licenses, tool maintenance	
25.4	Develop a process flow to manage the information in the FSA enterprise	
25.5	Develop the requirements & technical product to export the FSA enterprise	
26	Evaluate our participation in all events	
27	Implement Master Promissory Note for PLUS	
27.1	Implement PLUS electronic Master Promissory Note (eMPN) for DL	✓
28	Enhance our cash transaction process to accommodate OCFO procedures	
28.1	Work with Operating Partners, Contractors & OCFO to establish transaction-	✓
28.2	Work with Operating Partners & Financial Institutions to identify & correct systemic	✓
28.3	Enable FSA to identify differences before month-end & reduce Treasury	✓
28.4	Develop & automated methodology to reconcile cash transactions in FMS to the	✓

29	Augment LEAP/SLEAP module in FMS to enable direct electronic data exchange with GAPS & enhance the operational abilities	
29.1	Solicit & compile community/user requirements	
29.2	Meet & define Financial Management System (FMS) to GAPS connectivity &	
29.3	Test & validate the processing stream & edits with internal & external participants	
29.4	Define an operational work group comprised of FSA CFO, Financial Partners,	
29.5	Define strategy to enable additional reporting capabilities	
29.6	Provide feeders to Financial Partners Data Mart in conjunction with Release III	
30	Obtain a clean financial opinion for ED through: improving FMS internal processes, programs, controls; supporting reconciliation activities between FSA Operating Partners, FMS, FMSS, GAPS & Treasury; provide integration with FSA reengineered systems; & perform upgrade analysis & implementation of Oracle Federal Financials Release 11i	
30.1	Upgrade to Oracle Database 11i	✓
30.2	Integrate the transaction ID from GAPS	✓
30.3	Enhance FMS Operations processing	✓
30.4	Implement Federal Administrator	unfunded
30.5	Implement Guaranty Agency Forms 2000 Enhancements	
30.6	Implement Program Change Requests	✓
30.7	Implement FSA/Title IV Web-based (Draw-down) Capability & Award Processes	unfunded
30.8	Integrate & interface with Debt Management & Collection System (DMCS)	unfunded
30.9	Complete Tier 2 & Tier 3 of Headquarters' Oracle Implementation Approach	unfunded
31	Support ED, customers & business partners by participating in the President's Management Agenda E-Government initiatives	
31.1	E-Gov Support: Implement & participate in cross-gov initiatives including eLoans	
31.2	Cross Agency Web Support: Support operations & usability of existing interagency	
31.3	New R&D: Provide support for pilot tests, proofs of concept, research, white	unfunded
32	Develop an automated tool to administer budgetary resources for FSA's programs & to provide management with the data to effectively manage those resources	
32.1	Determine requirements for program fund management that are consistent with	✓
32.2	Investigate options that are compatible with Oracle financials, will integrate with	✓
32.3	Select an option that meets reqmnts, test for ability to meet reqmnts & decide	✓
32.4	Implement pilot based on decision

Appendix A - Project Status Report

Priority#	Channel	Action Item	Status Date	Progress Summary	% Complete
1	CFO	Obtain a clean audit opinion on FSA's financial statements			
Green					
			4/18/2003	COMPLETED	100
			3/21/2003	CFO is finalizing our audit plan for FY03 and will meet with OCFO next week to coordinate the audit plans and PBC (Provided by Client) lists for the Department and FSA. We will not have a final PBC listing until the new auditors are selected and deliver it to us. However, CFO held preliminary meetings with PBC owners in the Channels to coordinate the production of known PBCs.	11
			3/7/2003	The financial statements for the first quarter of FY03 were submitted timely by OCFO. FSA did not receive them until after transmission to OMB. Therefore, no analysis was completed. We will work with OCFO to receive and properly analyze the second quarter financial statements. Work has started to refine and consolidate schedules and queries which are likely to be requested by the auditors for FY03.	10
			2/11/2003	Both the Department and FSA received a clean opinion on the FY'02 audit. Multiple action plans and efforts will be put into place during FY'03 to improve our processes, analysis and reconciliations to enhance our probability of receiving a clean audit in FY'03.	100
			2/11/2003	Corrective action plans for findings of material weaknesses and internal control issues are due in 60 days.	100
				First quarter financial statements are due to CFO Monday, February for review and analysis. These statements are due to OMB by February 15th.	
			1/27/2003	Clean audit opinion was rendered on 1/27/03	100
			1/10/2003	Currently working with OCFO to achieve clean audit opinion. Ernest & Young (auditors) has delivered the official draft reports to the Office of Inspector General (OIG) for review. OIG will deliver the official draft reports to OCFO/FSA January 10th. ED's consolidated written comments are due to OIG/E&Y by January 16th.	95
			12/27/2002	Currently working with OCFO to achieve clean audit status	90

2 COO Develop and execute an FY03 plan to get off the GAO High Risk List

Red

Priority#	Channel	Action Item	Status Date	Progress Summary	% Complete
			6/13/2020	<p>Will not meet goal of removing the SFA programs from the GAO High Risk List in FY 2003.</p> <p>June 9, 2003 Letter from David Walker, GAO, stated that they decline to commit to reconsider their January 2003 decision to classify the SFA programs as high risk.</p> <p>--Is not their policy to address high-risk designations out of cycle [provide reports to Congress every two years Jan 2001, Jan 2003, etc.] -----Key reason is because it allows time between assessments to demonstrate the sustainability of corrective measures -----Worried about precedent it would set and possible significant unplanned use of resources that would adversely affect their ability to meet congressional mandates and requests on time --Largely because of the remaining financial management issues, believed that in their independent and professional judgment that as of January 2003, the SFA programs did not fully satisfy the criteria for removal from the high-risk list. However, will continue to use Project and Performance Measurement System to measure progress on addressing issues important to the designation: --Meeting Financial Management PMA goals and sustaining a clean opinion. --Continuing the good work started and meeting Human Resources and Information Technology and other PMA goals --Sustaining and even making more improvements in FSA to have a balanced management approach as it is modernizing and integrating its systems and processes. --Continuing open dialog with GAO and providing the PMA Initiative updates quarterly and providing FSA specific information frequently and other briefings as appropriate [GAO accepted our offer for briefings].</p>	70
			5/30/2003	<p>Item remains yellow until the Department has assurance that GAO will reconsider the January 2003 SFA Programs high-risk designation. GAO stated they should provide a response by 6/6/03. If receive a positive response, anticipate briefings on One-ED and Financial Performance will be held in June. Discussions continuing with OMB regarding the Pell erroneous payments reduction % - OMB requesting move to under 2.5% for FY 2004, Department holding to 3.1% as outlined in Performance Plans (significant reduction not on the horizon until the IRS Tax Code is revised to allow the appropriate match of income information).</p>	65
			5/16/2003	<p>During this period GAO met internally regarding the Secretary's May 2, 2003, request that the SFA Program high-risk designation be reconsidered. A formal response is being drafted by GAO. Discussions are ongoing regarding the OMB reporting document to support OMB's monitoring of status on the PMA SFA program specific initiative through July 1, 2004. OMB and the Department continue to be work the proposed legislative changes to the IRS Tax Code to assist in an income verification match. A meeting with OMB was held where OMB requested the schedule for a data strategy framework dependent item (single number). Various other meetings have been held with OMB/GAO/IG regarding issues that will continue to support efforts to improve program integrity. This item will remain yellow until the Department has assurance that GAO will provide an interim assessment prior to the end of the fiscal year.</p>	60
			4/18/2003	<p>Secretary letter to GAO requesting reconsideration of SFA program high-risk designation finalized and in clearance process. Status will remain yellow until a response is received from GAO regarding the reconsideration. As a result of a meeting with OMB, developed a reporting document (7104 Plan) to support OMB's monitoring of the status of the President Management Agenda SFA Program specific initiative. Auditor selected for Financial Statement audit and milestones established to provide auditors with interim March 31, 2003 financial statements with supporting reconciliations and analysis of significant account balances. Enterprise Architecture briefing to be held for the IG, similar to the briefings held for OMB and GAO, and the Data Strategy Framework Kick-off meeting was held. Default Management and Prevention Strategies project on track to inform Five Year Performance Plan, and meeting scheduled with the IG to discuss the risk in the SFA programs.</p>	50

<i>Priority#</i>	<i>Channel</i>	<i>Action Item</i>	<i>Status</i>	<i>Date</i>	<i>Progress Summary</i>	<i>% Complete</i>
				4/4/2003	Hold	30
				3/21/2003	Discussions, validation and refining of strategy held between COO and Deputy Secretary. Briefings with GAO to be held on areas raised in GAO's January 2003 report to demonstrate FSA/Department have addressed or have plans and management in place to address. Issues deal with financial management, enterprise architecture, systems modernization, maintaining program integrity, the prevention and collection of defaulted loans and human capital management issues. The first briefing was held March 17, 2002 covering the Department's Enterprise Architecture. The joint presentation by ED-OCIO and FSA-CIO was well received and well attended by FSA and Department management representatives.	30
				3/7/2003	Letter for the Secretary's signature requesting reconsideration provided to participants at Performance Meeting and to the Channel Heads for comment. The letter was also provided to MIT, the DepSec's and Legislation as a head's up and in support of 3/12/2003 Hoeksra Hearing proposed actions to address the high-risk designation. The updating of the FSA Five Year Plan (to include the FY 2003 Annual Plan), the timely submission of the FY 2002 Annual Report (to include the list of accomplishments against all the FSA projects in the FY 2002 plan), the continued improvements to the FSA financial management infrastructure and processes and procedures, finalization of the Default Management Strategies, continued/enhanced emphasis on program monitoring, timely development of the FSA Consistent Data Framework, meeting modernization/integration/enterprise architecture requirements/goals and assuring that FSA is fully engaged in One-ED and addressing Human Capital future needs is key to success of this effort.	25
				2/7/2003	FSA was on GAO's High Risk List for FY 2003, issued January 30, 2003, supported by work ending and ongoing through December 2002. In January, FSA received a clean opinion on its FY 2003 financial statement audit - thus the major obstacle for being removed from the GAO High Risk List has been overcome, although not timely enough to affect the January 2003 GAO High Risk designation. However, the FSA is requesting a reconsideration of the designation in FY 2003, in consideration of the clean audit, the plans for continued financial management improvement, and the commitment by management to address the issues, as demonstrated in the FSA and Department Annual Plans, the Department's Strategic Plan and other more detailed plans. This item will remain yellow until we have assurance that GAO will provide us with an interim assessment. It will turn red if GAO decides not to provide us with an interim assessment. At this time the COO of GAO knows that there will be a formal request and is open to discussing the request internally.	25
				1/24/2003	Although the draft financial statement audit report indicates that FSA is going to receive a clean opinion (thus the major obstacle for getting off of the GAO High Risk List will have been overcome), until we have assurance that GAO will provide us with an interim assessment prior to the end of the fiscal year the project will remain yellow.	10

3 CFO *Reconcile FSA accounts to Department's general ledger within 30 days after month-end close by 9/30/03*

Yellow

				4/18/2003	Reconciliations for the month of March have begun and should be completed and approved within metric.	50

			4/4/2003	Reconciliations for the month of March have begun and should be completed and approved within metric.	50
			3.1		
			3/21/2003	FSA and OCFO are finalizing the closing schedule so that FSA can meet the metric of reconciling 30 days after month-end. The FSA Operating Partner to FMS to FMSS reconciliations has been completed for the December period.	55
			3/7/2003	Reconciliations (including analyzing and resolving differences) for the month of December are behind schedule due to delay in closing FMSS. The timely closing of FMSS is critical to FSA meeting target dates for completion of reconciliations. FMSS has not yet closed month of December	50
			2/11/2003	November reconciliations were completed in a timely manner. The FMSS preliminary trial balances have been received by FSA during the week of February 3rd. The December period reconciliaiton process has begun.	50
			1/27/2003	Reconciliations (including analyzing and resolving differences) for the month of November are on schedule to be completed and approved within the 40-day goal of month-end close for the first quarter reconciliations. More specifically, 1) Initial work has begun on new methodology to reconcile the Direct Loan advance account. Coordinating with the Schools channel to reconcile from School (I.e., SAS, 732 report etc). 2) Forms 2000 November reconciliations are in the review process and will be forwarded to management for approval on 1/27/03. 3) FMS (pre) to FMS (post) reconciliations are in the review process and will be forwarded to management for approval on 1/27/03. This includes Direct Loan financing fund (x4253), FFELP liquidating fund (x0230) and financing fund (x4251). 4. FMS (post) to FMSS reconciliations are in the review process and will be forwarded to management for approval on 1/27/03. This includes Direct Loan financing fund (x4253), FFELP liquidating fund (x0230) and financing fund (x4251). 5. Initial work has begun on a new methodology to reconcile FSA grant funds for the FMS (pre) to FMS (post) and FMS (post) to/from GAPS and to FMSS. FMS (post) to FMSS reconciliations are in the review process and will be forwarded to management for approval on 1/27/03. This includes Direct Loan financing fund (x4253), FFELP liquidating fund (x0230) and financing fund (x4251). 7. Support provided to ED to complete November DCMS reconciliations, which have been forwarded to management for review and approval. 8. Initial planning has begun to address the beginning balance differences as	25
			1/10/2003	Reconciliations for the month of October have been performed and approved timely (within 45 days of month-end for first quarter reconciliations). All differences have been identified. These differences are being researched for resolution. The reconciliations for the month of November are in progress and are expected to be completed on time.	100
			12/27/2002	A detailed project plan is being developed and is expected to be finalized the week of January 3rd.	00

<i>Priority#</i>	<i>Channel</i>	<i>Action Item</i>	<i>Status Date</i>	<i>Progress Summary</i>	<i>% Complete</i>
------------------	----------------	--------------------	--------------------	-------------------------	-------------------

3/7/2003				The decision not to re-compete the DMCS contract as a stand alone was made. The re-engineering of DMCS will be rolled into the CSB initiative. Preliminary Market Research has been conducted for CSB and a report will be provided the week 3/10/03 to the COO, GM for Students and Glenn Perry. Dan Hayward has been selected to be the project manager for this effort. Michael J Murry has been detailed as Acting Manager of Direct Loan Servicing. We have received funding for CSB project and # 20 under "unfunded" is now combined with # 8 "funded". No further reporting on # 8 as it relates to DMCS only. Future reporting will support the CSB actions and status updates.	90
2/7/2003				The decision not to re-compete the DMCS contract as a stand alone was made. The re-engineering of DMCS will be rolled into the CSB initiative. With the final decision made relating to DMCS re-engineering as a separate initiative, work has begun for market research for an integrated solution for Common Services for Borrowers (CSB). The request for market research information is scheduled to be distributed no later than 2/28/03	90
1/24/2003				Decision will be made no later than 1/31/03. Discussions within Student Credit Management are occurring weekly.	80

9 SCH *Improve school's fund management, reconciliation, and close out processes*

Green

6/18/2003				The COD and FMS teams are discussing the most feasible way to define and report on the performance plan success measure (Process 90% of the fund requests so that funds will be available to schools in GAPS within 36 hours from the time COD receives records). Once the discussion concludes, this measure will be added to the executive dashboard.	65
6/4/2003				Steady progress is being made toward the overall project goal.	60
5/16/2003				Steady progress is being made toward the overall project goal.	56
4/18/2003				Steady progress is being made toward the overall project goal. (Last week's % complete was reported incorrectly and should have read 43%.)	47
4/4/2003				Although milestone 9.3 closes out this period, the project-level Percent Complete continues to be tied to the most general milestone (9.1) and the single largest milestone (9.4), both of which are expected to be complete near fiscal year end.	38
3/21/2003				Steady progress is being made toward the overall project goal.	38
3/7/2003				Steady progress is being made toward the overall project goal.	33

<i>Priority#</i>	<i>Channel</i>	<i>Action Item</i>	<i>Status Date</i>	<i>Progress Summary</i>	<i>% Complete</i>
			2/21/2003	Steady progress is being made toward the overall project goal.	29
			2/27/2003	Steady progress is being made toward the project goal as a whole.	25
			1/27/2003	Overall project Percent Complete is at this point in the year still a straight proration (days elapsed / days in total period), because steady progress is being made toward the project goal as a whole.	21
			12/13/2002	One milestone (9.2) is currently making this project yellow. We think the project is on track and ask that 9.2's completion date be pushed out to 6/30/03. Thanks for your consideration.	07

10 **FP** *Stabilize the Lender Application Process (LAP) and Lender Reporting System(LaRS)*

Green

			6/13/2003	This project to stabilize the LAP/LaRS System (FSA ID #10) was successfully completed on 01.07.2003. This project may now be closed.	100
			5/30/2003	The success measures are being reviewed for successful close out of project.	99
			5/16/2003	No input for this reporting period.	99
			5/2/2003	Assmebling analysis results for validation.	99
			4/19/2003	Awaiting approval of recommendation to remove Milestones 10.4 and 10.5 from this project.	99
			4/4/2003	The first and second deliverable were awarded and began 10.01.2002. The Task Order was delivered in phases 12.6.2003 and 1.7.2003 and accepted 2.6.2003. The project changed scope/focus and some of the action items originally planned were not contained in the Task Order. Therefore, action items 10.4 through 10.5 will be addressed outside the scope of this Task Order. Approval will be obtained to document management concurrence.	90
			3/21/2003	No change for this reporting period.	30
			3/7/2003	Milestones 10.1 and 10.2 are completed. Meetings will be scheduled to discuss approach for ongoing reviews and monitoring.	30

<i>Priority#</i>	<i>Channel</i>	<i>Action Item</i>	<i>Status Date</i>	<i>Progress Summary</i>	<i>% Complete</i>

			2/7/2003	Accenture deliverable was reviewed and accepted.	05
			1/24/2003	Pending deliverable approval by business unit (FPC).	05
			1/10/2003	NO CHANGE	05
			12/27/2002	Approval received from DSG, IPC and Deputy Secretary Hansen.	05
			12/13/2002	Funding approved by IPC as of 12.10.2002.	05

11 SCH Enhance Program Monitoring and Oversight

Yellow

6/18/2003	We are at the end of the third quarter, but are still not anywhere near 3/4 complete on the biggest milestones. The fact that most things are end-loaded increases the risk of blowing the Sept. 30 completion target. Milestone owners have agreed that it is reasonable to report the project level as yellow until the milestones catch up. (The alternative would be to run green until Sept. 30 and then go red the next period, should the project not be	55
6/5/2003	Projects are progressing as planned. Reporting has resumed on milestones 11.2.1 and 11.2.2 re applicant and payment error.	52
5/16/2003	Milestones 11.4.3 and 11.4.4 have been moved into project #11 per agreement reached in last week's IPC.	39
5/7/2003	The business channels have indicated that the majority of their milestones are end-loaded, and are therefore reporting them as green although the percents complete are still low relative to where we are in the fiscal year. The end-loading increases the risk of non-completion associated with project #11 overall, although the channel reporters feel that the risks associated with each milestone are being managed adequately. The one exception to this trend is milestone 4.1, financial partners data mart phase III implementation, which has been subject to delays in obtaining approvals and is now anticipated to start during May. This milestone is reading 0% complete, yellow, as one would expect.	36
4/23/2003	A methodology for reporting this project fairly and accurately is currently under review by the enterprise owners. Full reporting will begin May 7.	00

			4/18/2003	Change request for overall project completion date to November 17, 2003. The Data Strategy Task Order has been signed with optional deliverables awarded. The Data Strategy Framework team had a kickoff meeting on April 14. The Technical Strategies team had it's kickoff meeting on 4/15. Data Gathering meetings have begun with DLSS, DLCS, DCS. Deliverable 123.1.1 Statement of Strategic Data Focus Areas is due 4/30/03.	08
			4/4/2003	The APT for the Data Strategy expired on Friday, March 28th. FSA has approved(w/ minor modifications) the Business and Technical proposals. ED Contracts office is currently reviewing the Task Order. DSG and IPC recently approved a the Enrollment and Access Management business justification for \$1.16 million. The Data Strategy team leaders are concerned that multiple contract competitions are occurring during the same periods of time which will take away from well thoughtout solutions for the project.	07
			3/24/2003	Under Holly Hyland's leadership, FSA (on behalf of PESC) completed final tasks and delivered the draft CommonRecord FFEL and Alternative Loans Schemas to the NCHELP Electronics Standards Council (ESC) yesterday. Steve Margenau, technical resource for ESC and editor of the PESC Technical Specification called the schemas "beautiful." While there are sure to be comments and changes, additional resources (outside of FSA) have been identified to handle these modifications. However, FSA will stay connected with this review process to ensure a smooth delivery of the final schemas. The first draft of the Common Student ID solution will be presented to the Business Integration Group (BIG) on Thursday, March 27, 2003 9:00 to 4 p.m. The Technology Strategies team will be conducting their kickoff meeting on Monday, April 1, 10 a.m. The data strategy team has delivered a new business case, Enrollment and Access Management, to be presented to the DSG and IPC for review.	06
			3/7/2003	Overall Data Strategy Project is behind schedule but continuing to make progress on some of the teams. The first draft of the Common Record ISIR was completed and posted to the public March 3rd as scheduled. In addition, the Department continues to work with PESC and the FFEL community surrounding the Common Record FFEL and Alternative Loans. We had a successful series of Data Strategy presentations at the Software Developers Conference. We received input for PESC, NCHELP, and the software vendors on FSA's Data Strategy Framework. A number of people requested to participate on our teams to assist with our efforts. We are currently working on negotiating the details of the technical proposal for the Data Strategy task order. Several meetings have occurred in the past two weeks.	05

<i>Priority#</i>	<i>Channel</i>	<i>Action Item</i>	<i>Status Date</i>	<i>Progress Summary</i>	<i>% Complete</i>
			4/11/2003	An NSLDS Technical Re-assessment was performed in December 2002. The short project assembled key resources from Accenture, CSC, Raytheon, IBM, and FSA to assess the mid-tier proposal put forward by the Mod-Partner NSLDS Reengineering Team against a mainframe solution which had not been evaluated in the original proposal. The project team concluded that the original mid-tier solution, which utilized the smaller P660 servers, was more feasible with an upgrade to P690 servers. While this solution is most cost-effective, the mainframe solution presents the most robust environment. Ultimately, the best solution is a combination of the two: a mainframe data warehouse with a mid-tier data mart. FSA leadership has decided to defer for FY03 any implementation of a solution. Therefore, this project should be closed.	100

				5/16/2003	On May 13, Maximus was awarded the eLoans Phase 2 project management support contract. Maximus should be on-board by May 19. On May 9, the Department of Labor's CIO, Pat Pizzella, Assistant Secretary for Management, requested a briefing from the eLoans Gateway team about the Gateway vision, business case, and project plan. The Statement of Work for the eLoans gateway focus groups was advertised this week. The proposals are due by May 23. The vendor will conduct focus groups with loan customers (students, farmers, small business owners, veterans and home buyers) who will navigate through a prototype of the gateway. Focus groups will be conducted in July 2003. On 02/20/03, Innovations/E-Commerce presented a business justification and funding request to the DSG for students.gov and studentjobs.gov. The DSG recommended funding students.gov FY03 baseline operations for \$70,000, and Terri Shaw approved on 02/26/03.	45
				5/2/2003	The eLoans staff submitted an eLoans eGov Fund application for 2003 to OMB this week. The application included a request for the full \$1.985M for the eLoans initiative, based on our original commitment with our partner agencies, as outlined in the PMC briefing on November 7, 2002, also including the cost of each workstream so OMB would have the option to fund portions of the initiative. The Department of Veterans Affairs, as the lead on the pay.gov workstream, has begun working with agencies to complete Treasury's ACT (Agency Configuration Template) document. eLoans staff is working with its Financial Partners/CFO/Students Channel staff to identify resources who can assist with filling out the template (the document will identify common business requirements). On 02/20/03, Innovations/E-Commerce presented a business justification and funding request to the DSG for students.gov and studentjobs.gov. The DSG recommended funding students.gov FY03 baseline operations for \$70,000, and Terri Shaw approved on 02/26/03.	35

<i>Priority#</i>	<i>Channel</i>	<i>Action Item</i>	<i>Status Date</i>	<i>Progress Summary</i>	<i>% Complete</i>
			4/18/2003	On April 9, we met with partner agencies, OMB and Treasury to explore pay.gov as a possible solution to collect lender fees electronically. Treasury gave an overview of the pay.gov system, explained their plan to gather business requirements from the agencies, and offered to work with each agency individually to evaluate their business needs and develop a plan for possible implementation. The Department of Veterans Affairs and Treasury are leading this workstream. On April 15, Bill Leiding signed both the eLoans MOU and the eLoans Gateway MOU. We are now preparing the associated funds transfer documents for approval by ED offices so we can forward all completed documents to our partner agencies for their approval. We met with our partner agency leads on April 15 to discuss project planning and how best to obtain their agencies' approval of the eLoans MOU. On 02/20/03, Innovations/E-Commerce presented a business justification and funding request to the DSG for students.gov and studentjobs.gov. The DSG recommended funding students.gov FY03 baseline operations for \$70,000, and Terri Shaw approved on 02/26/03.	30
			4/4/2003	On April 1, we met with partner agency leads and OMB to continue project planning and preparations to move forward once funding is available. The eLoans and Gateway MOUs are still being reviewed by partner agencies (VA, HUD, SBA, USDA, DOL), General Counsel, and procurement staff. On 02/20/03, Innovations/E-Commerce presented a business justification and funding request to the DSG for students.gov and studentjobs.gov. The DSG recommended funding students.gov FY03 baseline operations for \$70,000, and Terri Shaw approved on 02/26/03.	45
			3/7/2003	eLoans staff coordinated with partner agencies and submitted revised performance metrics to OMB this week. The performance metrics were requested from all 24 E-Gov initiatives in preparation for Mark Forman's testimony to Congress on March 4. On March 4, we met with partner agency leads and OMB to continue project planning and preparations to move forward once funding is available. On February 20, Innovations/E-Commerce presented a business justification and funding request to the Decision Support Group for the interagency web portals: students.gov and studentjobs.gov. The DSG recommended funding students.gov FY03 baseline operations for \$70,000, and Terri Shaw approved on 02/26/03.	10

32	CFO	<i>Develop an automated tool to administer budgetary resources for FSA's programs and to provide management with the data to effectively manage those resources</i>			
		<i>Green</i>			
			3/7/2003	Automating the interface between FMS and FMSS to enhance budgetary fund management is the last step in the process. To get to this final step FSA must change the funding templates in FMS to correspond to Budget Services's budgetary limitations and implement a "splitter" process for the FFEL program. Both activities are well underway.	50
			2/11/2003	Work on this item is being coordinated with activities under CFO-4. Budget Service has requested that FSA align it's fund control with the Departments and develop the FFEL "splitter" to Budget Services and FSA's mutual satisfaction. These are current works in progress. When these fund management and reporting issues are resolved, we will examine tools to use so the FSA's program funds are entered automatically into FMS.	50
			1/27/2003	Proposed project completion date of 3/31/03.	00

Green	CFO		5/19/2003	100
--------------	------------	--	------------------	------------

This action item has been addressed along both dimensions (1) FMS is working effectively and (2) FMS is adequately integrated with the Department's general ledger. First, action item 4 on this plan is to review internal controls for all dataflows that come through FMS. This project is well underway, mapping interface data for the purpose of identifying opportunities to improve the dataflow and strengthen internal controls. Second, plans to better integrate FMS with the Department's general ledger are either complete or well underway. First, FMS recently completed the implementation of the GAPS Transaction ID, linking each transaction in FMS, GAPS, and FMS feeder systems using a unique Transaction ID. Also, as part of the implementation of the Splitter Allocation/Re-allocation implementation FMS has established a unique identifier linking all transactions passing from FMS to

2.4 Review trial balances and financial statements for follow up on unnatural balances in financial statements

Green	CFO		6/13/2003	50
--------------	------------	--	------------------	-----------

Working with OCFO personnel completed the review of March 31, 2003 financial statements including a flux analysis for FFEL and Direct Loans. Other analytics for the auditors that were developed included DL and FFEL, rollforwards and other downloads. Cash downloads for FFEL and DLs were tied into the financial statements. The March interim financial statements were submitted to OMB on time and copies were submitted to E&Y audit team by OCFO.
