

Packaged Software Finalists

This deliverable contains a short list of Packaged Software packages that satisfy most of the project's requirements. The packages listed in this deliverable will be evaluated in more detail to determine which one is most appropriate for the current needs.

Use this list of Packaged Software packages as a starting point for the software evaluation and selection process.

The content of this deliverable is simply a list of the selected finalists and the current status of the selection process. It also includes useful contact information. For example,

- Contact names
- Telephone numbers
- Fax numbers

Additional detail about the vendor can be seen on the Vendor Profile deliverable.
