Initiative: Enhanced Regulatory Implementation/Recommendations

Team Lead:	Jack Reynolds	
Team Members	Core Members	Part time/Advisors
	Mercedes Zajicek	
	Lynda Folwick –IT Innovations	
	Jim Newell – IT Innovations	
	Sterling Yoder	
	Johann Bos-beijer – CIO	
	Gene Greene - FP	
	Kathleen Smith – EFC	
	Kristie Hansen – NCHELP	

Initiative Mission:
Enhance the process by which existing and new regulatory/legislative mandates are tracked, communicated and implemented within the Financial Partners channel. This initiative includes evaluating and challenging current regulatory mandates and implementing improvements (e.g. reducing required forms).

Goals	Key Success Indicators
Design a “road map” of the various business processes present in the current configuration of the SFA/ED and FFELP Community relationship showing how each is impacted by regulations.	
Determine where the related regulations HELP or HINDER the various entities in the FFELP program in achieving the best possible PERFORMANCE. Point to those regulations which HELP entities to maximize their performance, and those regulations which HINDER entities from maximizing their performance.	
Examine the “road map” to determine how to remove “process” related items from regulation while remaining within the statutes.	
Develop a “Funding Model” for guaranty agencies by working with guaranty agencies.
