

Schools Portal
May 2000 Status Report (Version 1.0)
Executive Summary

Overview

The IPT met on a weekly basis during the month of May. Emphasis was placed on the clarification of issues related to the Portal Business Requirements with the Development Partners. Members of the IPT met with SFA Security Staff in May to determine what if any issues existed with Portal implementation vis a vis access to the Legacy SFA Systems. The Portal Users Group was established to provide feedback on the Portal Construct in June. All Portal initiatives remained code “Green”.

Project Status

The Project is moving forward. A 9/30/00 rollout is anticipated. A critical path issue relating to the establishment of the Development Environment Location has been discussed with the Tech Arch. Team. Based on the tight time-line, Portal and IFAP development is to take place at the corporate offices of Exolve and Beacon Technologies, as opposed to the VDC.

Timeline

April	May				
Define Website Integration Requirements	Define Hardware and Software Requirements				
Develop IFAP Integration Plan	Procure Development Software				
Develop Business Requirements	Establish Development Environment				
Analyze Systems Requirements	Establish Users Group				

Timeline Legend:

Black = On track; Yellow = Potential Problem; Red = Scheduled Deployment At Risk

Issues

Resolved:

- Portal Security Issues addressed. SFA Security Team does not anticipate any problems at this time.
- Portal/IFAP Development Locations established.

Pending:

- Hardware & Software Requirements for Development Environment

Deliverables Completed

May Status Report
