How YOU Help Put America Through School

## FAFSA on the Web Passes One Million!

SFA has received its one millionth FAFSA on the Web application for the 2001-2002 award year.

Last year, we didn't hit the one million mark until early May, and the year before it was in November.

"Reaching this mark this early in the year demonstrates that more students are switching to electronic applications," said Jeanne Saunders, director for Application Processing in the Students Channel. "This also shows that FAFSA on the Web is an excellent product that schools and states are pushing because it is faster, easier and more error free than the paper form."

The FAFSA team expects the numbers to continue to rise as students have filed 1,056,423 FOTW applications as of yesterday, said Nina Colón, acting team lead for FOTW.

Congratulations to Jeanne, Nina and the rest of the Students Channel for providing students with a great product that helps put America through school.
